Bröwiner

Simple folding stand design

The mobile stand is flexible and convenient to meet various position.

Also it's easy and quick to transport the boxes separately because of folding.

Traveling box packed

The box can be placed on the main X-ray equipment, imaging system, hand switch control, exposure control.

You can choose different flat panel detector and exposure control.

Also it's easy to transport and carry because of compact structure.

New large-capacity lithium battery design

Support AC/DC power supply, no restrictions in the environment.

It adopts the design of lithium battery, which is green environmental protection, light weight, small size, short charging time and long service life.

Interactive design

Touch screen with multiple APR would save more time. Quick setting of exposure parameters, the human-computer interaction interface is more friendly.

Various application scenes

It can be widely used in hospital room, disaster relief, emergency medical treatment, sports events, charity organizations, overseas voyage, photography for bailiff system etc.
